Soil apply Berry Builder at 20-30 gal/acre (1 3/4 oz/plant – 2 1/2 oz/plant). Repeat as needed every 3-4 weeks.

Band apply (in at least 10-20 gal/acre of water) or inject through drip irrigation (after irrigation filter). Avoid contact with foliage.

Application Precaution: As with all materials, user should exercise precaution to avoid potential foliar burning. Use caution if applying this product in combination with other materials since mixing could result in a potentially hazardous reaction caused by product incompatibilities. A compatibility test is recommended before tank mixing with other products. The pH of any final spray solution should be checked and the appropriate amount of the solution should be applied to a small area of the intended crop to ensure plant compatibility prior to the application. **THE USER ASSUMES FULL RESPONSIBILITY TO ENSURE PRODUCT, EQUIPMENT AND PLANT COMPATIBILITIES.**
