

CONTAINMENT

DEPOSITION AID · DRIFT REDUCTION AGENT

PRINCIPAL FUNCTIONING AGENTS:

Soybean oil methyl ester, petroleum hydrocarbons, nonyl phenol ethoxylate.....	99.7%
Constituents ineffective as spray adjuvants	0.3%
TOTAL	100%

All ingredients are exempt from tolerance under 40 CFR 180.

WA Reg. 99777-15006

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If Swallowed: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

Note to physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

NET CONTENTS: 1 U.S. Gallon (3.79 L)

GENERAL INFORMATION

CONTAINMENT is engineered to improve the deposition of pesticide applications by maximizing the number of spray droplets within the ideal size range for drift reduction and canopy penetration.

The degree of drift hazard varies with the type of pesticide, application conditions and the vegetation near the treated area.

CONTAINMENT is intended to be a drift reduction technology (DRT) that will improve deposition by limiting droplet rebound bounce and run-off from the target surface and help to reduce diffusion of the active ingredient away from the target surface.

Wind tunnel testing has shown that when CP™111T type nozzles are used with CONTAINMENT in aerial spraying, a more uniform droplet size range is generated that will enhance the delivery of the active ingredient throughout the layers of the canopy.

CONTAINMENT does not produce extra coarse droplets like polymer drift products. Internal cohesion of the formulation components helps to prevent droplet shearing into fines which could move off-target into sensitive areas.

% non-volatile	-99.7
% functioning agents	-99.7
Glyphosate	√
2,4-D/dicamba	√
Sulfonylurea	√

DIRECTIONS FOR USE

Not for Aquatic Use

Always follow the directions on the most restrictive active ingredient label.

Use only if a deposition aid and drift reduction agent are allowed or not excluded on the active ingredient label.

CONTAINMENT may be applied through direct injection systems when pumped with proper amount of water. Do not pre-mix with emulsifiable concentrates or aqueous solutions.

NOTE: When combining new or unfamiliar components in any tank mix, the applicator should conduct phytotoxicity and jar

tests to assure compatibility and avoid damage to non-targeted species.

Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F,DF)
2. Agitate then add adjuvants such as anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. CONTAINMENT or other adjuvants

Prior to mixing you should fill your spray tank with half of the carrier that you intend to use. Then start the sprayer and check to make sure that all valves and gauges work and that you have proper tank agitation.

Application Rates

Aerial and Ground Spraying

Suggested Rates Per Acre

Herbicides and fungicides 4 to 6 ounces of CONTAINMENT

Insecticides 2 to 4 ounces of CONTAINMENT

NOTE: Do not exceed 1% v/v of the spray solution.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40° and 90° F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE – LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale – Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Oregon Vineyard Supply, (OVS) (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company.

The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Oregon Vineyard Supply's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
