### Calcium Urea Ammonium Nitrate

Guaranteed Analysis

|                           |       |
|---------------------------|-------|
| Total Nitrogen (N).....   | 17.0% |
| 6.42% Urea Nitrogen       |       |
| 3.34% Ammoniacal Nitrogen |       |
| 7.24% Nitrate Nitrogen    |       |
| Calcium (Ca).....         | 6.0%  |
| 6% Water Soluble Calcium  |       |

Derived From: Urea Ammonium Nitrate and Calcium Nitrate

**Warning:** Do not mix with Phosphates

Density per gallon— 11.2 lbs/gallon @ 68°F

**Net Contents 5 gallons**

**Uses:** Direct application to the soil, or applied through surface or sprinkler irrigation systems.

Contains three forms of nitrogen—Nitrate Nitrogen for fast acting quick response, plus ammoniacal and urea nitrogen.

Contains soluble calcium for better water penetration, allowing applied nitrogen to easily reach the root feeding zone. Soluble calcium also improves water penetration in soils containing excess sodium.

Application Precaution: As with all materials, user should exercise precaution to avoid potential foliar burning. Use caution if applying this product in combination with other materials since mixing could result in a potentially hazardous reaction caused by product incompatibilities. A compatibility test is recommended before tank mixing with other products. The pH of any final spray solution should be checked and the appropriate amount of the solution should be applied to a small area of the intended crop to ensure plant compatibility prior to the application. THE USER ASSUMES FULL RESPONSIBILITY TO ENSURE PRODUCT, EQUIPMENT AND PLANT COMPATIBILITIES.
