Boron (B).....	0.5%
Manganese (Mn).....	0.06%
0.06% Chelated Manganese	
Zinc (Zn).....	0.5%
0.5% Chelated Zinc	

Derived From: Monopotassium Phosphate, Magnesium Sulfate, Boric Acid, Manganese EDTA and Zinc EDTA

WARNING: This product contains boron (B) and may be harmful to certain crops. Use according to your Crop Advisors directions.

Application Rates: 2.5 gallons per acre

Mix with 25–100 gallons of water per acre and spray the foliage.

Do not apply when ambient air temperature is above 88° Fahrenheit

Application Precaution: As with all materials, user should exercise precaution to avoid potential foliar burning. Use caution if applying this product in combination with other materials since mixing could result in a potentially hazardous reaction caused by product incompatibilities. A compatibility test is recommended before tank mixing with other products. The pH of any final spray solution should be checked and the appropriate amount of the solution should be applied to a small area of the intended crop to ensure plant compatibility prior to the application. **THE USER ASSUMES FULL RESPONSIBILITY TO ENSURE PRODUCT, EQUIPMENT AND PLANT COMPATIBILITIES.**

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.com>

Net Contents 5 Gallons

Density = 9.55 lbs. per gallon @ 68° F.
