We Sell Solutions™

Service & Parts

Have you had your 50 Hour Service?

*Protect your investment by following Kubota's recommended schedule of maintenance on new Kubota equipment after **50 hours** of use.*

Kubota

***Hauling services available to
and from your farm to our
shops!***

Check List Includes:

- **Engine oil & filter**
- **Transmission oil & filter**
- **Hydrostatic filter (if equipped)**
- **Front axle oil (4WD only)**
- **Change or clean air filter (as needed)**
- **And 15 other critical preventative maintenance checks and adjustments**

Based on factory recommended Check Points Maintenance Table for Kubota products for your particular model.

During the first 50 hours of operation your machine is "breaking in" the moving components within the engine and transmission. This process can often result in a build up of debris, but by changing the oils and filters You can prevent this debris from causing internal damage and ensure your new Kubota is off to a healthy start!
